

Your support can help save lives!

This 4-hour training is aimed at professionals who have heart to heart conversations with their clients. It's perfect for hairdressers, beauticians and massage therapists, etc.

Grapevine Group and Mackay Women's Services have partnered to provide a life-saving suicide prevention and DV awareness initiative for the Mackay region.

Heart to Heart training provides free safeTALK suicide prevention training and How to Chat about DV training. We know that just one conversation can change a life.

Learn how to identify someone at risk of suicide, talk to those experiencing suicidal thoughts, have supportive conversations about domestic violence and know where to direct people to access help. Anyone over 15 years is welcome to attend.

Book into the next free training session!
